Summary

Data Analyst with hands-on experience in Excel, SQL, Python, and Power BI through real-world projects. Skilled in data cleaning, visualization, dashboard development, and business reporting. Passionate about turning raw data into meaningful insights and eager to begin my career as a Data Analyst.

Education

Bachelor of Commerce (B.Com)

Delhi University – School of Open Learning (DU SOL)
Sep 2025 – Sep 2028

Senior Secondary (Class XII)

Government Boys Secondary School (GBSS) E-Block,
Jahangirpuri, Delhi – 110033
Jun 2024 – Mar 2025

Technical Skills

Python, SQL, Microsoft Excel, Power BI,
Pandas, NumPy, Matplotlib, Plotly, Streamlit,
Git, GitHub, Jupyter Notebook, MySQL, Power Query,
Data Cleaning, Data Visualization, Dashboard Development, DAX, Pivot Tables, Data Analysis,

Work Experience

Personal Projects

Data Analyst (Projects)

Mar 2026 – Jul 2026

Completed multiple end-to-end data analytics projects using Excel, SQL, Python, and Power BI. Applied data cleaning, visualization, and dashboard development techniques to solve business problems and generate actionable insights.

- Completed 8 end-to-end Data Analytics projects using Excel, SQL, Python, and Power BI.
- Analyzed 300,000+ records to generate business insights.
- Published all projects on GitHub with proper documentation.

Projects

Excel Sales Dashboard

Built an interactive Excel Sales Dashboard using Pivot Tables, Charts, and Slicers to analyze sales performance and business trends. • Created 12+ interactive charts and KPI reports.

Mar 2026 – May 2026

- Created interactive Pivot Tables, Charts, and Slicers for sales analysis.
- Analyzed 300,000+ sales records to identify revenue and customer trends.
- Built dynamic dashboards for better business reporting and decision-making.
- Improved data organization and visualization using advanced Excel features.

SQL E-Commerce Sales Analysis

Developed an advanced SQL project to analyze e-commerce sales data using CTEs, Window Functions, CASE statements, Joins, and Aggregate Functions. Extracted meaningful business insights from large datasets. • Wrote 30+ advanced SQL queries using CTEs,

May 2026 – May 2026

- Wrote advanced SQL queries using CTEs, Window Functions, CASE statements, and Joins.
- Analyzed sales, customer, and product data to identify business trends.

Certifications

Data Analytics Certification – Tutedude (ID: TD-PREE-DA-0834),

Microsoft Excel Certification – Tutedude (ID: TD-PREE-EX-2233),

Financial Modeling & Valuation – Tutedude (ID: TD-PREE-FM-2012),

Digital Marketing Certification – Tutedude (ID: TD-PREE-DM-1206)

- • Generated reports to support data-driven business decisions.
- • Optimized SQL queries for accurate and efficient data analysis.

Python Customer Risk Stratification App

Developed and deployed a Python application to classify customer risk levels using data analysis and visualization. Built an interactive interface to help users identify customer segments and support data-driven decisions. • Built a Streamlit web app

Jun 2026 – Jul 2026

- • Cleaned and analyzed customer data using Python and Pandas.
- • Built interactive visualizations with Plotly.
- • Deployed the application for online access using Streamlit.
- • Improved data interpretation through an easy-to-use dashboard.

Financial Performance Dashboard Power BI

Built an interactive Financial Performance Dashboard in Power BI to analyze revenue, profitability, sales performance, and financial KPIs using dynamic visualizations and filters. • Designed 15+ KPI cards, charts, and slicers. • Used DAX and Power Qu

Jun 2026 – Jul 2026

- • Designed interactive dashboards with KPI cards, charts, and slicers.
- • Analyzed revenue, profit, and sales trends to generate business insights.
- • Used Power Query and DAX to transform data and create calculated measures.
- • Built dynamic reports to support data-driven decision making.
